

274. H 指数

```
1 class Solution {
2 public:
3     int hIndex(vector<int>& citations) {
4         sort(citations.begin(), citations.end());
5         int h = 0, i = citations.size() - 1;
6         while (i >= 0 && citations[i] > h) {
7             h++;
8             i--;
9         }
10        return h;
11    }
12 };
```
